

HEDD Artists & Collaborators 2023

Since 2015, HEDD has been building audio products in Berlin that strive for incredible accuracy and signal fidelity so that users can get into their sound and do what they do best.

In this time we've been lucky to work with and be supported by a growing number of artists and music professionals around the world who have found in our products the clarity, precision, and comfort they had always been looking for.

Producers, Musicians, And Engineers

DJ Jazzy Jeff

Everything changed for the Philadelphia legend and hip-hop pioneer once he got a pair of **TYPE 30 MK2** for his home studio.

“I can absolutely, positively trust what I’m hearing out of these monitors.”

Hildur Guðnadóttir

The Academy Award winning composer & performer focuses on collaboration, minimalism, and the tactility of analogue. The **TYPE 20 MK2** let's her get into the sound.

“You really feel like you are in the sound.”

Hauschka

The Academy Award winning pianist and composer was an early supporter of HEDD, trusting in our desire to experiment in order to innovate. His Berlin studio is equipped with the **TYPE 20 MK2** and **HEDDphone**, which give him a neutral perspective.

“You get a very objective view on your music, essential for the mixing process.”

“These are the best monitors I’ve ever used!”

!!lmind

Grammy winner and multi-platinum producer Ramon “!!lmind” Ibang Jr. relies on the **TYPE 20 MK2** for accuracy whether he is putting together sample packs or producing hit records.

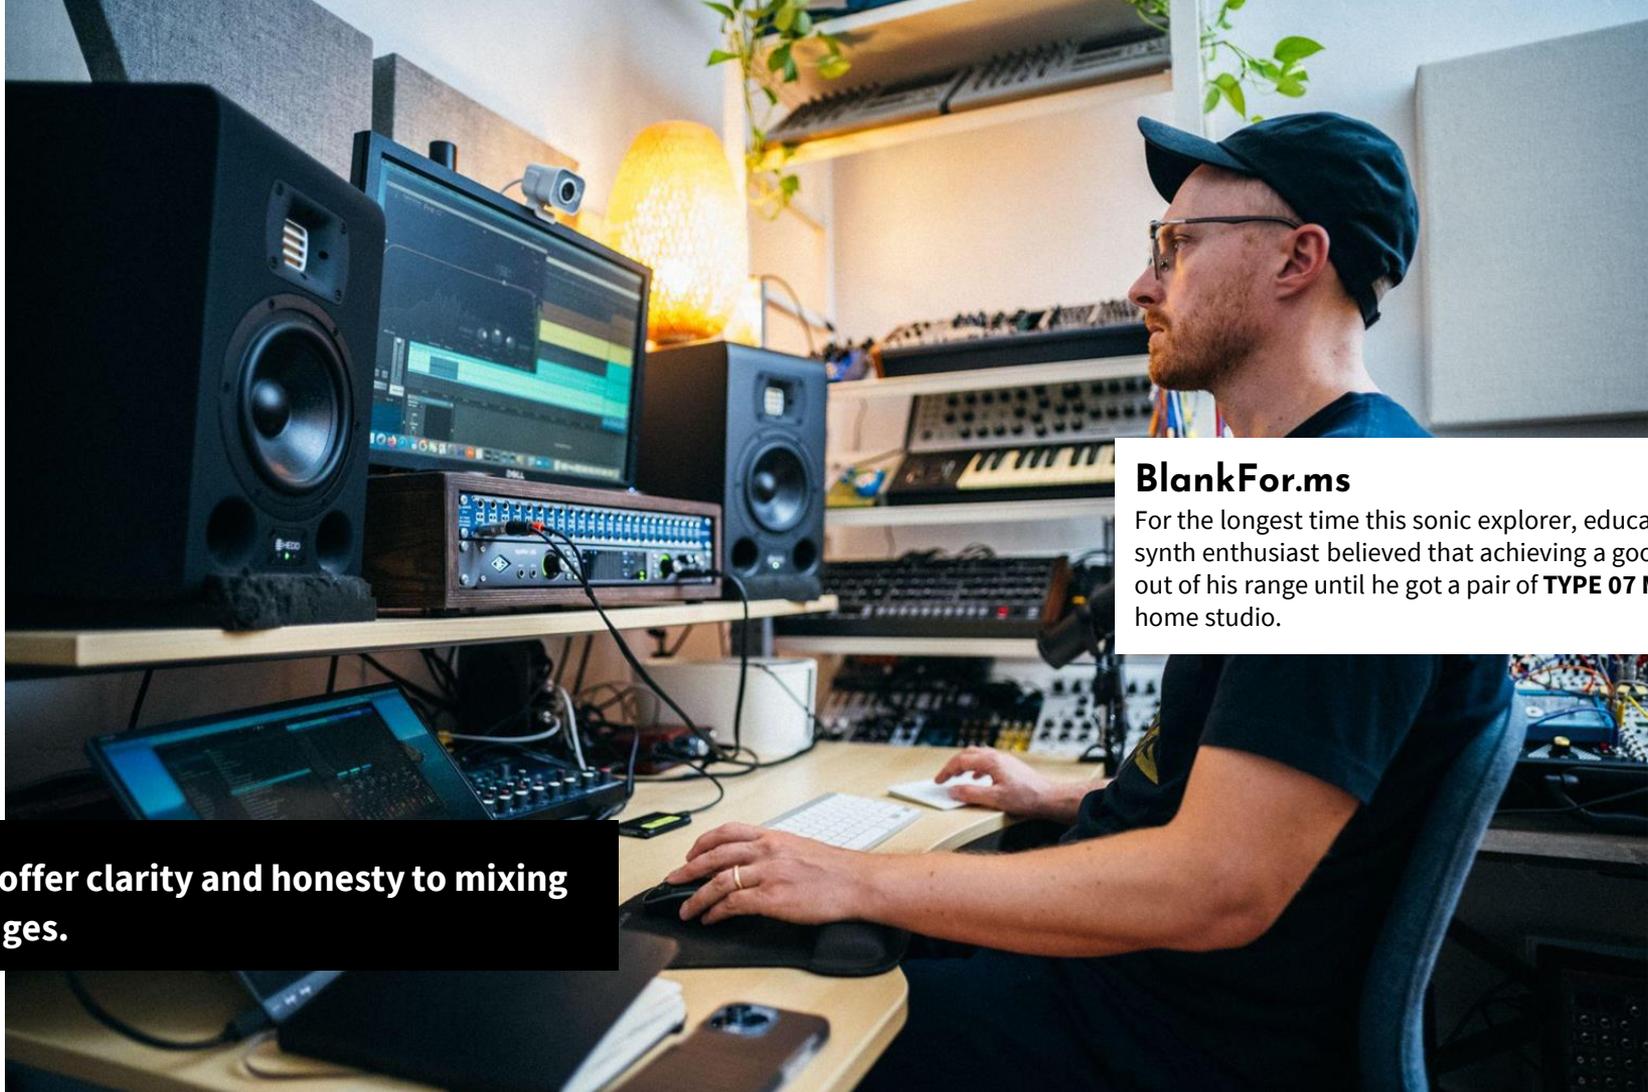

Heba Kadry

The Brooklyn-based mastering & vinyl cutting engineer is the choice of artists worldwide for her attention to detail and precision. As such the **HEDDphone** has been an invaluable addition, especially when working away from her studio space.

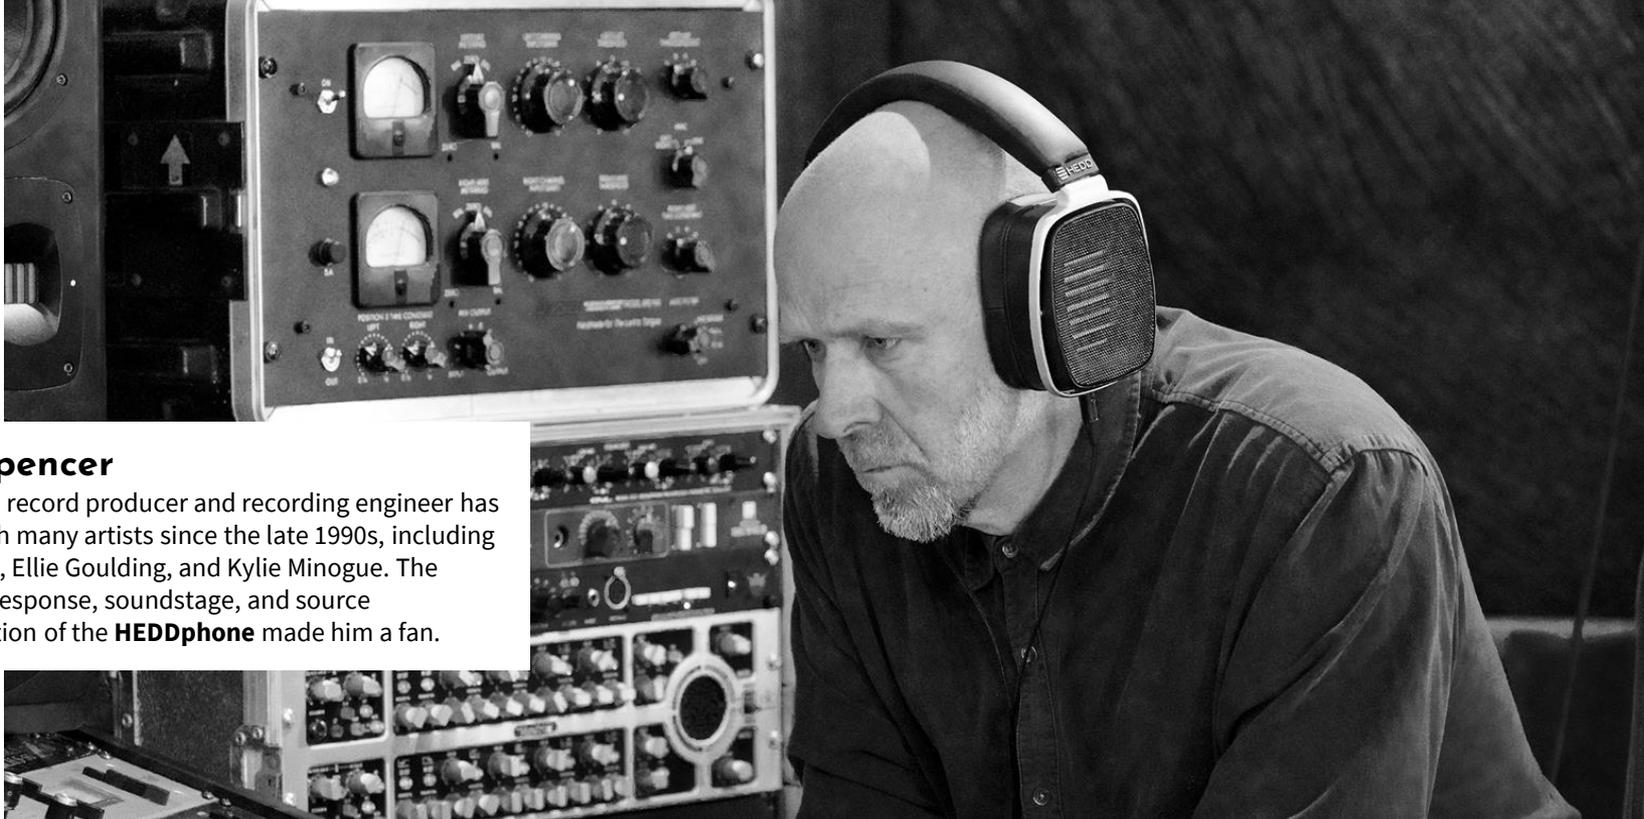

“These are as close as I could find to a pair of loudspeakers mounted on my ears minus the headphone fatigue aspect.”

BlankFor.ms

For the longest time this sonic explorer, educator, and synth enthusiast believed that achieving a good mix was out of his range until he got a pair of **TYPE 07 MK2** for his home studio.

“They offer clarity and honesty to mixing challenges.”

Mike Spencer

The English record producer and recording engineer has worked with many artists since the late 1990s, including Jamiroquai, Ellie Goulding, and Kylie Minogue. The frequency response, soundstage, and source representation of the **HEDDphone** made him a fan.

“The HEDDphone has earned its place as an integral and vital part of my workflow.”

TOKiMONSTA

The Grammy Award nominee and Los Angeles beat scene alumnus has become a champion of pop-minded dance music and she trusts the **TYPE 20 MK2** to ensure that her work will translate wherever it is heard.

“The best sounding monitors I’ve used. They help to fine tune mixes at different loudness levels.”

Recording Studios

Miraval (France)

The legendary French studio was relaunched in 2023 by Brad Pitt and Emmy Award-winner Damien Quintard. The studio includes the **TYPE 30 MK2** in the control room and **HEDDphone** for engineering work.

“The HEDDphone is tremendous — Damien Quintard

Devon Analogue (England)

This boutique electronic music-focused studio in the English countryside relies on HEDD to give their clients a sound they can trust. The hybrid installation utilizes the **Tower Mains System**, **TYPE 30 MK2**, and **HEDDphone** in a Trinnov-calibrated room.

“It’s just bliss to listen to. Clients trust the sound within the room.”

Gold Diggers (Los Angeles)

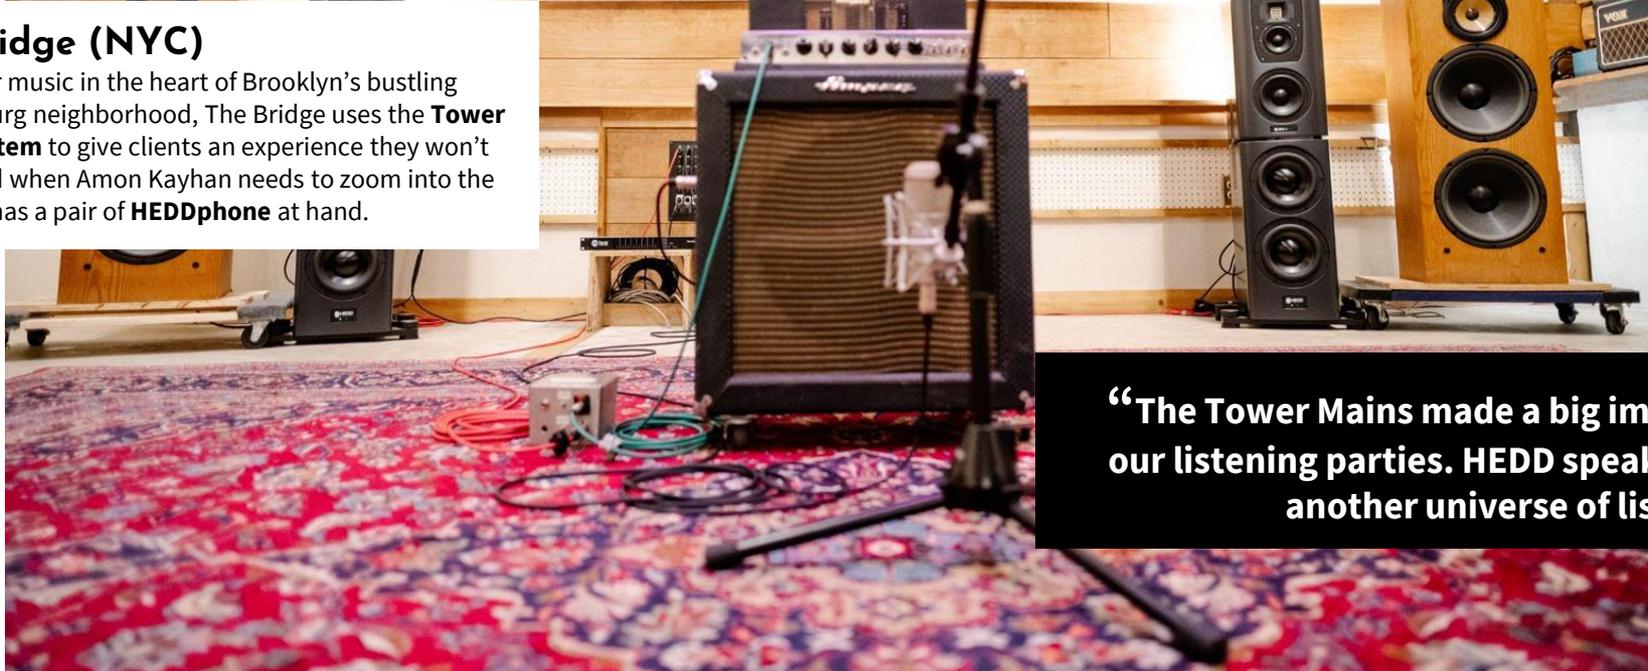

This LA music campus chose HEDD for one of their smaller rooms. By combining the **Tower Mains System** and **TYPE 20 MK2** they've been able to give clients — including Spotify, Apple Music, Billie Eilish, and Travis Scott — unforgettable experiences.

“People love this room and the speakers are a big part of that.”

The Bridge (NYC)

A home for music in the heart of Brooklyn's bustling Williamsburg neighborhood, The Bridge uses the **Tower Mains System** to give clients an experience they won't forget. And when Amon Kayhan needs to zoom into the sound he has a pair of **HEDDphone** at hand.

“The Tower Mains made a big impact on our listening parties. HEDD speakers are another universe of listening.”

Rimshot Productions (England)

This beautiful boutique studio, operated by Mike Thorn, an industry veteran attached to the roots music scene, made the choice to trust HEDD for its **Dolby Atmos** installation with a combination of **TYPE 05, 07** and **30** that deliver new dimensions to the music.

“They're not shouting at me, they make me want to lean into them and hear them.”
